Lemon-Aid guides steer the confused and anxious buyer through the economic meltdown unlike any other car-and-truck books on the market. U.S. automakers are suddenly awash in profits, and South Koreans and Europeans have gained market shares, while Honda, Nissan, and Toyota have curtailed production following the 2011 tsunami in Japan. Shortages of Japanese new cars and supplier disruptions will likely push used car prices through the roof well into 2012, so what should a savvy buyer do? The all-new Lemon-Aid Used Cars and Trucks 2012-2013 has the answers, including: More vehicles rated, with some redesigned models that don't perform as well as previous iterations downrated. More roof crash-worthiness ratings along with an expanded cross-border shopping guide. A revised summary of safety- and performance-related defects that are likely to affect rated models. More helpful websites listed in the appendix as well as an updated list of the best and worst "beaters" on the market. More "secret" warranties taken from automaker internal service bulletins and memos than ever.

The Power Report Dundurn

The Institute has successfully reanimated the body of Bayou Savage from his 200 year quantum suspension. The scientists, beleaguered by a wimpy, arrogant bureaucrat, have no idea of the unholy hell that is following Bayou into the year 2206. The opening of the portal paved an eight-lane highway for the banshees, ghosts and ghouls that spent the last 200 years in an Alcatraz dimension. The prison doors have opened and the miscreant souls are thirsty for blood and revenge. What's left of the world, from the Religious Wars of 2012, is about to be ravished by the Magi and his hoards from Hades. The only good news is that Leslie Quinn, a formidable psychic,

unrestricted by conventional dimensions, has brought Razor Savage, Quirk and Mist to the battlefield. Bayou's famous ghostfighting father, the first director of The Institute and Bayou's daughter will be able to lend a hand in the ghost wars that are coming hard and fast on the heels of what appeared to be a harmless experiment in resuscitation. Follow us now into an unknown world of bloodthirsty phantoms, a mystical guitar talisman and the ghost warriors come to save the planet. Will they succeed?

A lavishly illustrated history of the automobile - the marques, the machines, and the magic. From the first motor cars to today's supercars and environmentally-friendly electric models, this is the ultimate ebook about the history of the car. Includes stunning photography, and featuring more than 2,000 cars, The Car Book shows you how cars have evolved around the world over the last 130 years, and their impact on society as objects of curiosity, symbols of status and luxury, and items of necessity. Extensive catalogues showcase the most important marques and models, organized in categories such as sports cars, convertibles, and city compacts. The ebook also features virtual photographic tours of some of the most iconic cars from each era, such as the Rolls Royce Silver Ghost, Ford Model T, Lamborghini Countach, and McLaren Speedtail, while cross-sections of key engines explore the driving force behind them. Lavishly illustrated feature spreads detail the stories of the individuals, machines, and visionary ideas that helped create the car world's most famous marques and made brands such as Porsche, Mercedes-Benz, Aston Martin, and Cadillac household names. If you love cars, then you'll love The Car Book. It is simply a must-have title for all motoring enthusiasts.
