Harry Kollatz Junior's debut novel. Carlisle Montgomery is a "six-foot-five, redheaded, pigtailed, gap-and-bucktoothed, nine-fingered, guitar playing freak." Smoking, slugging whisky, arm wrestling, entangled with women and men and with her hard-touring group, the Live Wires, a "bluegrass band with a honky-tonk problem they're not trying to fix" with their "purebred American Mongrel music." It's the 1990s and the world is divided between Grunge and Garth Brooks and this story delves into the heart of what it means to be a musician and an artist in a changing world. "A dizzying, dazzling, physical novel, featuring an epic character sometimes great at love, sometimes great at being bad at it. Kollatz lays downright musical tracks in breathless, thumping prose, and Carlisle Montgomery, like its heroine, is damn near invincible." -- Susann Cokal, *The Kingdom of Little Wounds*, *Mermaid Moon*

Harley-Davidson motorcycles are the grandest name in American motorcycling, and represent the freedom of the open road, a life of rebellion, and a

heritage of craftsmanship for over 100 years. In this collection, the biggest and best writings, old and new, are assembled on Harley-Davidson and their unique mystique by writers and personalities that are part of the legend, from Hunter S. Thompson to Sonny Barger, Evel Knievel to Arlen Ness, and more. Punctuated with classic images—from vintage motorcycling photos to racing and walls of death posters to pictures from biker LPs and novels—these are the stories that have helped define the Harley-Davidson myth. The tales of the company's birth, the rise of the biker outlaw legend, and the modern-day revival of choppers, bobbers, and retro rides are all told by the best-loved sages of biker lore. With sidebars on biker movies, biker literature, and much more, this book chronicles the Motor Company's long ride into modern-day legend.

Spanning a decade (1992-2002), these speeches echo the theme that our health care system needs fundamental change and a revolutionary new design. Throughout the book, Berwick identifies innovations and ideas from a number of surprising sources—a girls' soccer team, a sinking ship, and the safety standards at NASA. *Escape Fire* takes its title from the 1949 Mann Gulch tragedy in which thirteen young firefighters were trapped in a wildfire on a Montana hillside. The firefighter's leader, Wag Dodge, devised a creative solution for avoiding the encroaching fire. He burned a patch of grass and lay down in the middle of the scorched earth. His team refused to join him, and most perished in the fire. Dodge survived. Berwick applies the lessons learned from the catastrophe to our ailing health care system—we must not let ingrained processes obstruct life-saving innovation. Not content to simply define the problems with our flawed system, Berwick outlines new designs and suggests practical tools for change: name the problem, build on success, take leaps of faith, look outside of the medical field, set aims, understand systems, make action lists, and—the most fundamental of all—never lose sight of the patient as the central figure.
