This Handbook re-evaluates the E minor and F minor Piano Concertos so that their many outstanding qualities can be fully appreciated.

Analyses of Nineteenth- and Twentieth-century Music, 1940-2000 Oxford University Press
Exceptionally clear, systematic presentation of the evolution of musical style from Gregorian Chant (AD 700) to mid-20th-century atonal music. Over 140 musical examples. Bibliography.

Guide to the Pianist's Repertoire, third edition MIT Press

"The Frédéric Chopin Annik LaFarge presents here is not the melancholy, sickly, romantic figure so often portrayed. The artist she discovered is, instead, a purely independent spirit: an innovator who created a new musical language, an autodidact who became a spiritually generous, trailblazing teacher, a stalwart patriot during a time of revolution and exile. In Chasing Chopin she follows in his footsteps during the three years, 1837-1840, when he composed his iconic "Funeral March"-dum dum da dum-using its composition story to illuminate the key themes of his life: a deep attachment to his Polish homeland; his complex relationship with writer George Sand; their harrowing but consequential sojourn on Majorca; the rapidly developing technology of the piano, which enabled his unique tone and voice; social and political revolution in 1830s Paris; friendship with other artists, from the famous Eugène Delacroix to the lesser known, yet notorious in his time, Marquis de Custine. Each of these threads-musical, political, social, personal-is woven through the "Funeral March" in Chopin's Opus 35 sonata, a melody so famous it's known around the world even to people who know nothing about classical music. But it is not, as LaFarge discovered, the piece of music we think we know. As part of her research into Chopin's world, then and now, LaFarge visited piano makers, monuments, churches, and archives; she talked to scholars, jazz musicians, video game makers, software developers, music teachers, theater directors, and of course dozens of pianists. The result is extraordinary: an engrossing, page-turning work of musical discovery and an artful portrayal of a man whose work and life continue to inspire artists and cultural innovators in astonishing ways"--

Music, Analysis, Experience An Analysis of the Chorales in Three Chopin Nocturnes Op. 32, No. 2; Op. 55, No. 1; and the Nocturne in C# Minor (without Opus Number) Schenker Studies 2

Robert P. Morgan is one of a small number of music theorists writing in English who treat music theory, and in particular Schenkerian theory, as part of general intellectual life. Morgan's writings are renowned within the field of music scholarship: he is the author of the well-known Norton volume *Twentieth-Century Music*, and of additional books relating to Schenkerian and other theory, analysis and society. This volume of Morgan's previously published essays encompasses a broad range of issues, including historical and social issues and is of importance to anyone concerned with modern Western music. His specially written introduction treats his writings as a whole but also provides additional material relating to the articles included in this volume.

Hugo Riemann and the Birth of Modern Musical Thought Faber Music Ltd

In this book, David Temperley addresses a fundamental question about music cognition: how do we extract basic kinds of musical information, such as meter, phrase structure, counterpoint, pitch spelling, harmony, and key from music as we hear it? Taking a computational approach, Temperley develops models for generating these aspects of musical structure. The models he proposes are based on preference rules, which are criteria for evaluating a possible structural analysis of a piece of music. A preference rule system evaluates many possible interpretations and chooses the one that best satisfies the rules. After an introductory chapter, Temperley presents preference rule systems for generating six basic kinds of musical structure: meter, phrase structure, contrapuntal structure, harmony, and key, as well as pitch spelling (the labeling of pitch events with spellings such as A flat or G sharp). He suggests that preference rule systems not only show how musical structures are inferred, but also shed light on other aspects of music. He substantiates this claim with discussions of musical ambiguity, retrospective revision, expectation, and music outside the Western canon (rock and traditional African music). He proposes a framework for the description of musical styles based on preference rule systems and explores the relevance of preference rule systems to higher-level aspects of music, such as musical schemata, narrative and drama, and musical tension.

A Topical Guide to Schenkerian Literature Lulu Press, Inc

Second volume of studies based on the work of Heinrich Schenker.

Chasing Chopin Koenemann

The complex cultural status of Chopin--he was a native Pole and adopted Frenchman, a male composer writing in "feminine" genres--is the subject of Kallberg's absorbing book. Combining social history, literary theory, musicology, and feminist thought, this book situates Chopin's music within the construct of his somewhat marginal sexual identity.

Music, Gender, and Sexuality Cambridge University Press

This new volume incorporates all entries from the previous editions by Arthur Wenk, expanding to cover writings drawn from periodicals, theses, dissertations, books, and *Festschriften* from 1940 to 2000. Over 9,000 references to analyses of works by over 1,000 composers of the nineteenth and twentieth centuries are included.

Trois nocturnes pour le pianoforte ... Routledge

Frederic Chopin composed many great piano works that musicians have enjoyed and studied since the Romantic Era. These pieces continue to be performed around the world. This research focuses on specific aspects of selections of Chopin's literature, and how those aspects can be taught to those unfamiliar with his works. The goal is to teach others to appreciate his works. The research problem investigated in this study is to determine the melodic qualities of the pianistic texture in Chopin's solo piano works that are identifiable by theoretical analysis and public performance. The methodology used in this study will be score study and qualitative research. The hypothesis is that there are certain melodic qualities in Chopin's piano works that can be identified, including pedal tones, embellished phrases, theme and variations, inner melodies, harmonic/overtone pedaling and opposing rhythms. These qualities were found in several of Chopin's works and have been discovered as identifiable by theoretical analysis. Pedal tones can be found in the Prelude in D-flat major, Op. 28, No. 15, Nocturne in C-sharp minor, Op. 27, No. 1, and Ballade No. 3 in A major, Op.

47. Embellished phrases can be found in the Prelude in D-flat major, Op. 28, No. 15 and Nocturne in E minor, Op. 72, No. 1. Theme and variations can be found in the Ballade No. 3 in A major, Op. 47, Ballade No. 4 in F minor, Op. 52 and Nocturne in E minor, Op. 72, No. 1. Inner melodies can be found in the Prelude in D-flat major, Op. 28, No. 15 and Nocturne in C-sharp minor, Op. 27, No. 1. Harmonic/Overtone pedaling can be found in the Prelude in D-flat major, Op. 28, No. 15 and Nocturne in C-sharp minor, Op. 27, No. 1. Lastly, opposing melodies can be found in the Ballade No. 4 in F minor, Op. 52 and Nocturne in E minor, Op. 72, No. 1. A lecture recital will be given focusing on these pieces to show the audience these melodic qualities both visually and aurally.

Learning the Language of Music Routledge

Structure and Style, first published in 1962 and expanded in 1979, fills the need for new ways of analysis that put 20th-century music in perspective. It spans forms in use before 1600 through forms and techniques in use today. *Anthology of Musical Forms* provides musical examples of forms treated in *Structure and Style*. Some examples are analyzed throughout. Most are left for the student to analyze. These books reflect Leon Stein's impressive background as student, musician, and composer. Stein studied composition with Leo Sowerby, Frederick Stock (conductor of the Chicago Symphony) and orchestration with Eric DeLamar, his assistant. He earned M. Mus and Ph.D degrees at DePaul University and was associated with its School of Music as director of the Graduate Division and chairman of the Department of Theory and Composition until his retirement in 1976. He has composed a wide variety of works, including compositions for orchestra, chamber combinations, two operas, and a violin concerto.

Anthology of Musical Forms - Structure & Style (Expanded Edition) A-R Editions, Inc.

Written by a pupil of Heinrich Schenker, this outstanding work develops and extends Schenker's approach. More than 500 examples of music from the Middle Ages to the 20th century complement the detailed discussions and analyses.

Sex, History, and Musical Genre Scarecrow Press

Annotation: The Index is published in two physical volumes and sold as a set for \$250.00. As America's geography and societal demands expanded, the topics in *The Etude* magazine (first published in 1883) took on such important issues as women in music; immigration; transportation; Native American and African American composers and their music; World War I and II; public schools; new technologies (sound recordings, radio, and television); and modern music (jazz, gospel, blues, early 20th century composers) in addition to regular book reviews, teaching advice, interviews, biographies, and advertisements. Though a valued source particularly for private music teachers, with the de-emphasis on the professional elite and the decline in salon music, the magazine ceased publication in 1957. This Index to the articles in *The Etude* serves as a companion to E. Douglas Bomberger's 2004 publication on the music in *The Etude*. Published a little over fifty years after the final issue reached the public, this Index chronicles vocal and instrumental technique, composer biographies, position openings, department store orchestras, the design of a successful music studio, how to play an accordion, recital programs in music schools, and much more. The Index is a valuable tool for research, particularly in the music culture of American in the late nineteenth and early twentieth centuries. With titles of these articles available, the doors are now open for further research in the years to come.

The Etude Cambridge University Press

This is a basic e-book on learning the language of music with improvisation. There are six sections with enough information to get you going, then videos that will show what is to be learned and practiced. The first section is on the major scale itself and how it is built. The second section is on the beat. And the third section is improvising on the major scale. And three more sections on improvising on songs, with one on improvising for the beginning piano student.

Interpreting Chopin: Analysis and Performance Good Press

'A book that no serious student should be without... refreshingly sane.' Jeremy Siepmann, *Classical Music* 'An immensely valuable and well-researched book.' Stephen Haylett, *BBC Music Magazine* 'Intermittently engrossing...' Susan Bradshaw, *Musical Times*.

Mazurkas Routledge

"The Hinson" has been indispensable for performers, teachers, and students. Now updated and expanded, it's better than ever, with 120 more composers, expertly guiding pianists to solo literature and answering the vital questions: What's available? How difficult is it? What are its special features? How does one reach the publisher? The "new Hinson" includes solo compositions of nearly 2,000 composers, with biographical sketches of major composers. Every entry offers description, publisher, number of pages, performance time, style and characteristics, and level of difficulty. Extensively revised, this new edition is destined to become a trusted guide for years to come.

Hotel Theory Pendragon Press

A monthly journal for the musician, the music student, and all music lovers.

The Cognition of Basic Musical Structures Cambridge University Press

Music theory is often seen as independent from - even antithetical to - performance. While music theory is an intellectual enterprise, performance requires an intuitive response to the music. But this binary opposition is a false one, which serves neither the theorist nor the performer. In *Interpreting Chopin* Alison Hood brings her experience as a performer to bear on contemporary analytical

models. She combines significant aspects of current analytical approaches and applies that unique synthetic method to selected works by Chopin, casting new light on the composer's preludes, nocturnes and barcarolle. An extension of Schenkerian analysis, the specific combination of five aspects distinguishes Hood's method from previous analytical approaches. These five methods are: attention to the rhythms created by pitch events on all structural levels; a detailed accounting of the musical surface; 'strict use' of analytical notation, following guidelines offered by Steve Larson; a continual concern with what have been called 'strategies' or 'premises'; and an exploration of how recorded performances might be viewed in terms of analytical decisions, or might even shape those decisions. Building on the work of such authors as William Rothstein, Carl Schachter and John Rink, Hood's approach to Chopin's oeuvre raises interpretive questions of central interest to performers.

Nocturnes Hal Leonard Corporation

(Piano). Did you use to play the piano? Would you like to play again? This is the first of two books of *Play It Again: Piano*. It will reunite you with the keyboard using real pieces from the piano repertoire to teach specific techniques and tips, to get you playing fluently once again. The level of pieces in this first book progresses from around UK grades 1 to 4 (elementary to intermediate). Aimed at "returning" players who have spent some time away from the keyboard, *Play It Again: Piano* gives you the confidence to revisit this fulfilling pastime and go beyond what you previously thought you could achieve. Each of the 28 pieces in Book 1 is accompanied by two full pages of easy-to-understand practice tips, all designed to get your fingers speeding comfortably across the keys once again! There are more comprehensive Piano Technique and Theory sections at the front and back of

each book, so you can also delve deeper to regain a fuller understanding of music and technique. Each book is arranged in 4 progressive sections, with Book 1 moving from Elementary to Intermediate and Book 2 taking you from Late Intermediate to Late Advanced. Dip in and out wherever your level of playing suits: this two-book course starts with simple and elegant miniatures and concludes with the famously showy Prelude in C-sharp minor by Rachmaninoff! Confident pianists could start with Book 2, but there is a wealth of delightful repertoire and valuable practice tips in Book 1 it's always useful to go "back to basics." Baroque, Classical and Romantic works sit alongside Jazz, Ragtime, contemporary or traditional pieces at every level, so each lesson brings something different and you'll learn to play in a range of styles, some of which may be new to your fingers. If you often find yourself saying "I used to play the piano ..." but wish you still did, then *Play It Again: Piano* is the resource for you! Contents: ELEMENTARY: Air, ZT 676 (Purcell) * Minuet, BWV Anh. 114 (Bach) * Andantino, Op. 137, No. 8 (Bertini) * The Sick Doll, Op. 39, No. 7 (Tchaikovsky) * Salut d'Amour, Op. 12 (Elgar) * Calypso (Kember) * Super Duck (Cobb) * LATE ELEMENTARY: King William's March (Clarke) * Allegro, KV 3 (Mozart) * Soldier's March, Op. 68, No. 2 (Schumann) * Allegro non troppo, Op. 82, No. 65 (Girlytt) * Study, Op. 108, No. 25 (Schytte) * Maple Leaf Rag (Joplin) * Jump Shuffle (Richards) * EARLY INTERMEDIATE: Prelude, BWV 999 (Bach) * Study, Op. 37, No. 20 (Lemoine) * Les Pifferari (Gounod) * Prelude, Op. 28, No. 7 (Chopin) * Sailor's Hornpipe (Traditional) * Mississippi Rag (Kember) * Three Outasight Mice (Readdy) * INTERMEDIATE: Sonatina, Op. 36, No. 2 (Clementi) * Study, Op. 849, No. 29 (Czerny) * Ballade, Op. 100, No. 15 (Burgmuller) * A Little Night Music, KV 525 (Mozart) * Gymnopedie, No. 1 (Satie) * Fried Chicken (Moser) * Karma (Spanswick)
