*An Indicator to Indian Educational Journals Grouped by 2465 Subject Descriptors* Oswaal Books and Learning Private Limited

This book takes a fresh look at development communication in the Indian context. Charting its international history and discussing the Millennium Development Goals (MDGs) that evolved as part of the phenomenon of globalization, it links the history of India's development with development communication and discusses the role of media in disseminating information to the public. *Development Communication in Practice: India and the Millennium Development Goals* analyzes seven Indian newspapers for a period of seven months and evaluates the extent to which development issues are addressed in them. The findings reveal an under-representation of development issues in the media which, the author argues, needs to be addressed. Reviewing recent concepts on poverty measurement and the MDGs set forth by global scholars such as Jagdish Bhagwati, Amartya Sen and Joseph Stiglitz, the book acknowledges the importance of

information technology, literacy and education in the process of development. This book will be a good resource for economists, development communication practitioners, government officials dealing in media and communication and students and researchers working in the fields of communication and media studies and journalism.

price structure and the consequences of its trade policies. We examine here the consequences of such a “Gulliver” effect, looking at the case of Nepal whose economy is closely linked to the economy of India. Since India’s protective policies are not optimal for Nepal, we consider the various alternatives for Nepal. The “optimal divergence” is for Nepal to allow the free import of intermediate and capital goods, while, for import-competing industries, it cannot depart from India’s trade policy.

One of the most popular Indian novels of all ages, 'Ananda Math' was translated innumerable times into Indian and English languages. Five editions were published in Bengali and Hindi during the author's lifetime, the first in 1882. The novel has the backdrop of the 18th century famine in Bengal, infamous as "Chhiyattorer Manvantar" (famine of 76th Bengali year, 1276), to narrate the saga of armed uprising of the ascetics and their disciples against the pillaging East India Company rulers. The uprising is historically known as 'Santan Vidroha', the ascetics being the children of Goddess Jagadambe. The saga of 'Ananda Math' is thrilling and best epitomised in the patriotic mass-puller song "Bande Mataram" ('Hail thee, O My Motherland'). The song is still a mantra that stirs imagination of millions of Hindus. The ascetics robbed the tormentors of people — the British rulers and the greedy zamindars — distributed the looted wealth to poverty-stricken people but kept nothing for themselves. Their targets were mostly the Company armoury and supplies. They had a highly organised setup, spread throughout Bengal. It was also India's first battle for freedom, and not the Sipahi Vidroha of 1857.
