Right here, we have countless books **The Hiram Key Christopher Knight** and collections to check out. We additionally offer variant types and moreover type of the books to browse. The welcome book, fiction, history, novel, scientific research, as without difficulty as various extra sorts of books are readily comprehensible here.

As this The Hiram Key Christopher Knight, it ends up monster one of the favored book The Hiram Key Christopher Knight collections that we have. This is why you remain in the best website to look the unbelievable books to have.

SULLIVAN FORD

The Knights Templar Watkins Media Limited

This book is an essential exploration into the history of a legendary group of Crusaders, which are prominently featured in Dan Brown's recent best seller, *The Da Vinci Code*. The Knights Templar rose from humble beginnings to become the most powerful military religious order of the Middle Ages. Formed to protect pilgrims in the Holy Land, they participated in the Crusades and rapidly gained wealth, lands, and influence. Seemingly untouchable for nearly two centuries, they fell from grace spectacularly after the loss of the Holy Land. In the ensuing centuries the Templars have exerted a unique influence over European history; orthodox historians see them as nothing more than soldier-monks whose arrogance was their ultimate undoing, while others see them as occultists of the first order. With clarity and ease, Martin navigates between the orthodox and the speculative, the historical and the myth, to bring alive the story of the Templars. Like those other legends of the Middle Ages—the characters of the Arthurian tales—The Knights Templar holds captive the imagination of all those intrigued by conspiracy and how history and myth intertwine to become the stuff of legend.

The Hiram Key Revisited University of Pennsylvania Press

It's a masterpiece...if you're interested in American Masonry and its impact on our country, this book is for you.—Brent Morris, *The Scottish Rite Journal*

Turning the Solomon Key Basic Books
The authors of *Civilization One* return, bringing new evidence about the Moon that will shake up our world. Christopher Knight and Alan Butler realized that the ancient system of geometry they presented in their earlier, breakthrough study works as perfectly for the Moon as it does the Earth. On further investigation, they found a consistent sequence of beautiful integer numbers when looking at every major aspect of the Moon--no such pattern emerges for any other planet or moon in the solar system. In addition, Knight and Butler discovered that the

Moon possesses few or no heavy metals and has no core—something that should not be possible. Their persuasive conclusion: if higher life only developed on Earth because the Moon is exactly what it is and where it is, it becomes unreasonable to cling to the idea that the Moon is a natural object. The only question that remains is, who built it?

Before the Pyramids Sterling Publishing Company

THE MOST COMPREHENSIVE AND COMPELLING BOOK EVER WRITTEN ABOUT THE SECRET SOCIETY THAT SHAPED THE MODERN WORLD. Freemasonry, with its arcane rituals, occult symbols, and labyrinthine hierarchy, has mystified the outside world for centuries. But it has become apparent that even the most senior Freemasons do not understand its ancient origins or purpose. So what is this powerful and arcane organization really for? In this eye-opening account, two seasoned researchers show that today's Freemasons are the spiritual descendants of an ancient priesthood that was forced to act in secrecy. They predicted the birth of the coming Messiah, and Jesus Christ was part of their mission. Soon after the Crucifixion they were nearly wiped out by a program of mass genocide conducted by the Romans; later, in feudal Europe, they grew to a position of unparalleled power before being branded as heretics and forced underground. But they could not be stopped, and they continued to work in subtle, sometimes subversive, always anonymous, ways to pursue their objective—a new world order that put God above, and yet out of, human affairs.

Handbook of Freemasonry FV Éditions
The cement which binds a lodge together is the regular meetings of its members. For the first time ever, in our long history, we have been unable to meet. We have taken part in a dangerous and compulsory experiment, For the first time in our long history we have had to submit Our Craft to life support by placing it in an artificially induced coma and keeping its life breath of meetings flowing by using the artificial ventilator of the video get-together. With the advent of vaccines, we are faced with the risky business of arousing this slumbering giant. Because of the losses by

death, resignation, and decline of interest, there is a real danger that the habit of monthly Masonry in our lodges will crumble and fail. We need to do something, but what? This book explores the options for a return to a new reality. *God's Blueprint* M. Evans
Robert Lomas is the bestselling co-author of *The Hiram Key* and other international bestsellers on Freemasonic mysteries. Many say he is the model for Dan Brown's hero, Robert Langdon. *The Lost Key* contains revelations that only an initiate of the highest orders of esoteric Freemasonry is in a position to make. Here is the truth behind the hints in Dan Brown's *The Lost Symbol* that Freemasonry is concerned to reawaken the hidden potentialities and powers of the human mind. The thrilling narrative of this new book follows a candidate for initiation as he rises through the different grades of initiation, taking part in ceremonies that are sometimes terrifying but always revealing of new knowledge and presenting new mysteries which will only be solved when the next stage of initiation has been achieved. Dramatic episodes include the re-enacting of an ancient murder from 3,000 years ago in full gory detail, lowering the candidate on the end of a rope into a dark vault under the floor of the temple, holding a dagger to the candidates naked breast, and making the candidate attend his own funeral. In the secret teachings revealed to some high-level initiates, there is a type of instruction which seems curiously similar to religious and mystical teachings. Astrology, angels, chakras and the powers of the mind to operate independently of the body, such as in remote viewing, are all a part of Freemasonic lore. Robert Lomas is both a physicist - he teaches physics at Bradford University - and a Freemason. Here he reveals to a wider public and also explains these secret teachings for the first time. He shows that while they are dismissed as superstitious by campaigners for atheism such as Richard Dawkins, they are very much part of the strange, paradoxical world opened up by the latest thinking in quantum physics. This is why he prefers to call them 'Supranatural'.

City of the Goddess Watkins Media Limited

"A philosophical look at the history of our species which alternated between fascinating and frightening . . . like reading Dean Koontz or Stephen King." —Rocky Mountain News

The Lucifer Principle is a revolutionary work that explores the intricate relationships among genetics, human behavior, and culture to put forth the thesis that "evil" is a by-product of nature's strategies for creation and that it is woven into our most basic biological fabric. In a sweeping narrative that moves lucidly among sophisticated scientific disciplines and covers the entire span of the earth's—as well as mankind's—history, Howard Bloom challenges some of our most popular scientific assumptions. Drawing on evidence from studies of the most primitive organisms to those on ants, apes, and humankind, the author makes a persuasive case that it is the group, or "superorganism," rather than the lone individual that really matters in the evolutionary struggle. But biology is not destiny, and human culture is not always the buffer to our most primitive instincts we would like to think it is. In these complex threads of thought lies the Lucifer Principle, and only through understanding its mandates will we be able to avoid the nuclear crusades that await us in the twenty-first century. "A revolutionary vision of the relationship between psychology and history, The Lucifer Principle will have a profound impact on our concepts of human nature. It is astonishing that a book of such importance could be such a pleasure to read."—Elizabeth F. Loftus, author of *Memory*

Albert Pike Random House

In 1871, Albert Pike created *Morals and Dogma of the Ancient and Accepted Scottish Rite* as a guide to the 32 degrees of Scottish Rite Freemasonry. It was his intention that becoming a Scottish Rite Mason require years of study to understand the allegories, the underlying moral lessons, and their applications. Pike's scholarly but practical instruction serves as a guide for every Mason working to be the best husband, father, brother, friend, and citizen that he can be. In 2007, a complete and comprehensive review was initiated to provide insight into Albert Pike's original work. This new book is the only edition that is not abridged, a digest, or an editorial commentary of the original book. The entire original book was translated into modern English from the difficult sentence structure and language prevalent in 19th century literature. *Morals and Dogma for the 21st Century* brings these important lessons back within the grasp of the modern Mason.

Morals and Dogma for the 21st Century Random House

"American Indian Freemasonry" by Arthur C. Parker. Published by Good Press. Good Press publishes a wide range of titles that encompasses every genre. From well-known classics & literary fiction and non-fiction to forgotten—or yet undiscovered gems—of world literature, we issue the books that need to be read. Each Good Press edition has been meticulously edited and formatted to boost readability for all e-readers and devices. Our goal is to produce eBooks that are user-friendly and accessible to everyone in a high-quality digital format.

A Pilgrim's Path Robinson

For almost seven and a half centuries, a piece of cloth was venerated because it bore the image of the crucified Christ. However, but results of carbon dating have shown that the fabric could not have predated 1260. Now new evidence conclusively proves that it is not a face...yet neither is it the image of Jesus Christ. In the follow-up to their groundbreaking first book, *The Hiram Key*, Christopher Knight and Robert Lomas continue their research into the mysteries of Freemasonry and the true historical Jesus, and uncover the precise time and place of the shroud's creation. The answer to the great mystery of the Shroud of Turin will surprise and astonish as the authors unlock the secrets of abandoned Freemason rituals and the man who would be called the Second Messiah.

Turning the Hiram Key BRILL

The real purpose of this research is the exploration of the Bible and its many African hidden secrets. The use of Tubal Cain in Masonic ritual is derived from the old legends of the craft by the operative and then speculative masons; it refers symbolically but historically to his scriptural and traditional reputation as an artificer. Tubal Cain is the 8th man from Adam. In the bible it mentions that Tubal-Cain was the first to manipulate metal. He is quoted as being the first instructor of brass and iron. This pamphlet will break down and analyze the symbolism behind this sacred password.

Who Built the Moon? Lulu.com

Robert Lomas is a real-life Dr. Robert Langdon! Co-author of *The Hiram Key*, the bestseller that Dan Brown notes as his inspiration for the Roslin Chapel-set climax of *The Da Vinci Code*, is a renowned freemasonry historian and truth-seeker. In *Turning the Templar Key*, Lomas reveals the origins of the Knights Templar and the historical context for Dan Brown's thrillers. Buy this book if you couldn't get enough of *The Lost Symbol* and want to discover more about the exciting and mysterious symbols, puzzles, codes, and characters that were derived from Lomas' research and writings. Lomas investigates the facts, challenges the conspiracy theorists, and guides you on an inspiring and complex quest to uncover the truth, explain the motives, and document—for the very first time—the genesis of the Templar Freemasonry.

The Second Messiah M Evans & Company

This page-turning study of the Giza pyramids, British henges, and the megalithic measuring system "could completely change the way we view our remote past...and origins" (Robert G. Bauval, author of *The Orion Mystery*) The suggestion that the Giza pyramids were laid out to represent the stars of Orion's belt, with the position of the River Nile reflecting the Milky Way, was first put forward by the renowned author Robert Bauval in his bestselling book *The Orion Mystery*. In *Before the Pyramids*, Christopher Knight and Alan Butler reveal that the British henges were arranged in the same formation—but much earlier. They also present irrefutable evidence that the astronomical calculations determining the layout of the pyramids could only have been made from the site of the henges in North Yorkshire. From this they can conclude that the pyramids of the pharaohs were conceived and planned in Britain. Their next stunning discovery takes us to modern times. They have found evidence that the whole Megalithic measuring system has survived into the 20th century. There are examples in Washington, DC—even in the positioning and construction of the Pentagon, which was only commenced in 1942 and is an exact copy of the dimensions of Stonehenge, dating to 3,000 BC.

Open Road + Grove/Atlantic

Can the ancestry of freemasonry really be traced back to the Knights Templar? Is the image of the eye in a triangle on the back of the dollar bill one of its cryptic signs? Is there a conspiracy that stretches through centuries and generations to align this shadow organization and its secret rituals

to world governments and religions? Myths persist and abound about the freemasons, Margaret C. Jacob notes. But what are their origins? How has an early modern organization of bricklayers and stonemasons aroused so much public interest? In *The Origins of Freemasonry*, Jacob throws back the veil from a secret society that turns out not to have been very secret at all. What factors contributed to the extraordinarily rapid spread of freemasonry over the course of the eighteenth century, and why were so many of the era's most influential figures drawn to it? Using material from the archives of leading masonic libraries in Europe, Jacob examines masonic almanacs and pocket diaries to get closer to what living as a freemason might have meant on a daily basis. She explores the persistent connections between masons and nascent democratic movements, as each lodge set up a polity where an individual's standing was meant to be based on merit, rather than on birth or wealth, and she demonstrates, beyond any doubt, how active a role women played in the masonic movement.

American Indian Freemasonry Watkins Publishing

Many people are curious about the existence of secret societies which claim to hold arcane religious or esoteric knowledge and pass it down through the generations via selected adepts. Classic Masonic writers including William Preston, Robert Gould, JSM Ward, AE Waite and WL Wilmshurst have written about secret

traditions connected to the Temple of Sion. Each has different ideas about how mystical knowledge came into Freemasonry. Some say that the Charter of Larmenius reveals an underground line of Knight Templar Grand Masters who survived down to the nineteenth century. All agree there is a Secret Lodge or House of Adepts who continue to teach "true" knowledge of the ancient mysteries and that The Craft transmits beliefs linked to the Earls of Rosslyn, the Knights Templar, and Lodge Mother Kilwinning. Masonic expert Robert Lomas has collected together this thread of belief from old Masonic writers and rewritten it in modern English to make the ideas accessible to modern readers.

The Meaning of Masonry Sterling

It started as a personal quest to unearth the origins of their order's ancient rituals—but 14 years after they began their search, Freemasons Christopher Knight and Robert Lomas have discovered much more. *The Book of Hiram* brings their mission to an amazing close, as it painstakingly rebuilds the long-forgotten story contained in the scattered rites and ceremonies of Freemasonry and puts forth explosive evidence drawn from the latest archeological discoveries, the Bible, and early versions of Masonic rituals. What it reveals is "The Masonic Testament," a parallel narrative to the Bible, with events that go unmentioned or unnoticed in those sacred pages—including a secret science of astronomy that they find encoded in the

Bible. The study concludes with the startling revelation: that a lost science that changed the world before, could change it once again.

The Hiram Key Fair Winds Press (MA)

Freemasonry has a deep purpose which can be overlooked in the rush of the modern world. Its ritual says it is a high and serious subject. But how can an individual discover the truths it outlines? Robert Lomas has spent thirty years as a university teacher, and twenty years studying Freemasonry. In this book he shares his personal insight into the Craft and outlines the steps a Mason must take to find self-knowledge. His words are illuminated by the unique symbolic drawings of two masters of Masonic Tracing board design. The purpose of Freemasonry is to help its members become Initiates in the science of Life. If you want to know yourself, then Freemasonry offers a path to that knowledge. It is a spiritual adventure, fit for the athletic and adventurous mind. *The Secret Science of Masonic Initiation* reveals that path.
